SUMMARY

I am a **Senior Shopify Developer** with **4 years** of experience, including 3 years focused on Shopify development and 1 year of hands-on **React.js** experience. I specialize in building and optimizing e-commerce websites, creating custom themes and apps, and integrating third-party services to improve user experience. I am skilled in developing responsive, high-performance front-end applications and have strong problem-solving skills, attention to detail, and the ability to work well in a team. I'm looking for a challenging role where I can contribute to innovative projects and continue growing my technical skills.

WORK EXPERIENCE

Shopify Developer, Commerceforz

Aug 2023 - Present

- **Shopify Liquid Editing:** Edited and customized Shopify Liquid code to create and improve themes.
- **Shopify Projects:** Worked on 20+ Shopify stores, improving site speed, design quality, and custom features. Experienced in handling both already-built Shopify projects as well as creating new stores from scratch using purchased themes or fully developing them based on Figma designs. Skilled in customizing themes, integrating apps, optimizing performance, and delivering client-ready Shopify solutions..
- **SEO & A/B Testing:** Improved Shopify store SEO and tested different versions to increase sales.
- **Shopify App Development:** Built custom Shopify apps to add new features and connect with other tools.
- **Experience with Other Platforms:** Have basic knowledge of Magento, Salesforce, and BigCommerce.
- **Shopify Hydrogen & Headless Commerce:** Learned how to use Shopify Hydrogen and headless commerce for faster and more flexible stores.
- **Klaviyo (Email Marketing):** Integrated Klaviyo with 3 Shopify projects, including abandoned cart emails, welcome emails, and promotional campaigns.
- **Patchworks (Middleware Integration):** Implemented Patchworks middleware in three real-time Shopify projects, setting up automated workflows to sync customer lists, refund details, inventory, and order data between Shopify and SAP. Completed all official Patchworks certifications, including workflow creation, connector setup, data mapping, and advanced error-handling modules.

React Js Developer, Soflets

Jun 2022 - Jul 2023

- **React.js Development:** Worked as a front-end developer for a Malaysian resort booking project.
- **Used Redux:** Managed and stored app data with Redux.
- **Added Animations:** Used GSAP to create smooth and interactive animations.
- **Improved UI/UX:** Made the website easy to use and visually appealing.
- **Connected to APIs:** Fetched and displayed real-time booking data from the backend.
- **Optimized Performance:** Made sure the website loads fast and works smoothly.

- **MERN Stack Training:** Completed a 6-month training program on MERN stack development.
- **Real-World Tasks:** Worked on real projects given by industry experts to improve skills.
- **Weekly Reviews:** Took part in weekly reviews and tests to track progress.
- **Full-Stack Experience:** Gained hands-on experience in MongoDB, Express.js, React.js, and Node.js.
